

Andrew Abosh Designer and Developer

🇨🇦 Toronto, Canada — 📧 andrew@abosh.me — 🌐 andrew-abosh.com — 🐙 github.com/aabosh

📄 Summary

- Three years of experience in iOS app development with two apps built with Swift on the App Store.
- Well-versed in UI & UX design for mobile and web with Sketch. Proficient in After Effects for interactions.

🌟 Recognition

Meeting with Tim Cook and CTV Interview — Apple & CTV — <https://youtu.be/4Us8J5N1qpE> Jan 2018

- Recognized by Apple, Inc. for my two iOS apps.
- Led to a one-on-one meeting with CEO Tim Cook about the future of coding and discussing it on CTV.

WWDC Scholarship — Apple — <https://youtu.be/MqaLxoWBipl> Jun 2017

- I was 1 of 350 students selected to attend Apple's Worldwide Developers Conference in San Jose.
- I developed an interactive Swift playground that simulated gravity using SpriteKit, UIKit, and AVFoundation.

🔧 Technical Skills

Languages: Swift, Python, Java, Objective-C, HTML/CSS
Platforms & Tools: iOS, macOS, Ubuntu, Xcode, Git, Webflow
Design Tools: Sketch, Adobe Photoshop, Adobe After Effects

👤 Work Experience

Beyond Media Digital — UI/UX Design Intern May 2018 — Present

- Independently designed and developed the company website with Sketch and WebFlow.
- Using Sketch, leading the design of new features for the CMS *Circuit*, which is used by several colleges in Canada.
- Redesigning and developing the *Circuit* landing webpage.
- Animating, storyboarding, and writing animated infographics for marketing with Adobe After Effects.

Freelance Web Developer — Web Developer, Designer, and Consultant Dec 2018 — Present

- Built the website for Caledon Law, a law firm using the Bulma CSS Framework.
- Currently consulting and developing the website for Huddle, a new shared space in Scarborough.

📦 Projects

Tiles² — iOS — <https://apps.apple.com/us/app/tiles/id1097012706> Nov 2017

- A fast-paced memory game designed in Sketch and developed in Swift using UIKit.
- Featured on the App Store and charted at #11 with 100k downloads.

Gradus¹ — iOS — <https://apps.apple.com/ca/app/gradus/id1063184658> Mar 2016

- App designed and developed in Swift with UIKit and AutoLayout to help high school students evaluate their grades.
- Featured on the App Store and charted at #64.

Cydia Substrate Tweaks — iOS May 2014 — Sep 2015

- Designed three iOS extensions that were published on Cydia, the popular marketplace for jailbroken devices.
- More than one million downloads among them and all have received press from jailbreak-related news outlets.

Exam Study Notes — <https://andrew-abosh.com/notes/> Jun 2014 — Jun 2015

- In high school, I published my exam notes for all courses. They are still used by students across Ontario today.

🎓 Education

University of Toronto — Bachelor of Computer Science (Expected) Sep 2018 — Sep 2023

St. Michael C.S.S. — Ontario Secondary School Diploma Sep 2014 — Jun 2018

- Voted by my fellow students and teachers as Valedictorian of my high school graduating class.
